environmental law forum 2018

*Climate Change, Responsibility and
Liability*
International Conference

November 8th to 10th 2018
University of Graz

Experts from different continents deal with legal, scientific, economic and philosophical questions, e.g.:

- What are the scientific approaches on which successful climate claims can be based?
- What principles of liability for current and historical GHG emissions result from from both an international law and a philosophical point of view?
- Who can file climate lawsuits against states and large emitters, which dogmatic approaches are successful?

Featured International Speakers:

Sergey Belov, Oliver Dörr, Michael Hanemann,
Alexander Proelß , Oliver Ruppel, Jaap Spier, Roda
Verheyen, Jorge E. Vinuales, Ke Zhou
