

**Energy Citizenship!? Knowledge Gap!? Decarbonisation!? Co-
Creation!? Social Acceptance!? Energy Market Design!?**
Energy transition. Sustainability.

Are you interested in these topics and want to work on European and Austrian projects?
Then apply to the Energy Institute at the JKU Linz as a
(Junior) Researcher [m/f/d].

What makes you stand out?

- Enjoy research in a young motivated team,
- a degree with a focus on economics / social sciences,
- Desire to work in European collaborations (incl. travel opportunities), among others - especially in our ongoing EU Horizon projects "DIALOGUES", "ENCHANT" and "CAMPAIGNers",
- high ability to work independently; organisational skills and good command of English; interest in data analysis.

What do we offer you?

- working in a motivated and creative team that passionately and analytically develops the energy system of the future,
- an exciting environment of inter- and multidisciplinary research with international research collaborations,
- the opportunity to write a dissertation in the context of projects at the Institute,
- a research institute that promotes togetherness in diversity as well as holistic ways of thinking and is committed to equal opportunities,
- a permanent employment contract; flexible working hours and opportunities to work partly in a home office,
- a gross monthly salary of € 3.138 for a full-time position (overpayment possible with appropriate qualifications and professional experience) at 14 monthly salaries.

If we have aroused your interest, then we look forward to receiving your application at bewerbung@energieinstitut-linz.at [Subject: "Bew. 3/22"].

Applications are continuously screened by us. An application is possible until a suitable candidate has been found.

INTEREST? We are looking forward to meeting you!
